PVC LOUVER DOOR INSERTS

IN STOCK SIZES FOR 1-3/4" DOORS

Vent sizes for flush and panel doors

Designed with a simple 2-piece inner and outer frame set, Pro-Kay's louver is made to install similarly to door glass insert. All inserts come standard with a built-in fiberglass insect screen and come packaged with installation screws and screw hole plugs.

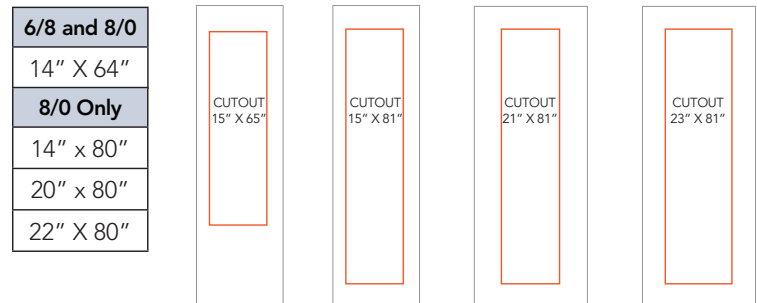

Louvered door inserts are designed to cutout and install like a doorlite for flush and panelled doors.

Cutout size determined is 1" larger than the insert size.

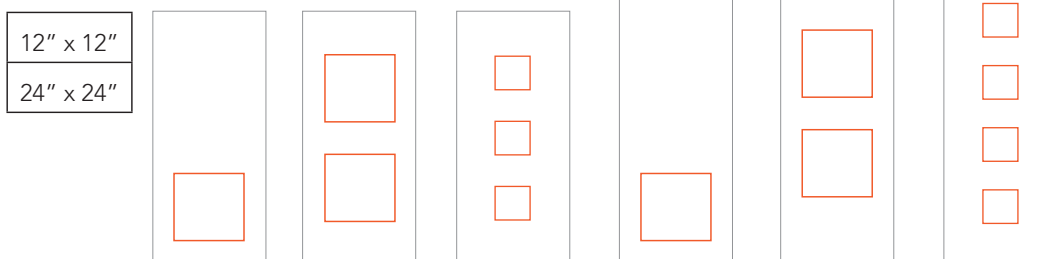

SPECIAL ORDER SIZES FOR 1-3/4" DOORS

Available in custom sizes and for interior 1 3/8" doors.

Vent sizes for flush and panel doors

Vent sizes for flush doors

PVC manufacturers void all warranty if not painted with PVC grade paint that has an LRV value of 55 or higher
